**Old Business:**

Randy Provencher was unable to attend the meeting. We discussed putting in a perimeter drain on the West and North sides of the Masonic Hall and having water run to a catch basin on Crown Point Rd by the hall.

Joan moved to divert water on the North/West sides of the building to a new catch basin, then across Crown Point Rd to an existing catch basin and consider tying into any pipe underneath the Masonic Hall if necessary and possible to do so. Tim seconded, motion passed.
